Karate

by Hannah Briggs

I like Karate because it helps me defend my self. And I learn to become stronger. Some of it is not all learning when my karate class is almost over and were done with all our tecness

Mr. Hatfield let's us play a game my favorite game is the white belt game that's where you get a small belt you thak is under your other belt and other people that are playing try to take it it's a fun game.

I also like doing karate because at school if you get into a fight you know how to defend your self and you work hard prictise and get new belt's it's fun.
